My Search & My Find Fields in Order Entry

- The NEW look up functionality allows for a partial word entry and the system will provide a drop down of the ten (10) most closely matched items.
- This allows now for a two (2) character start search that allows for the lookup of items such as IVs.
- This also allows for the partial entry and search using two separate words, with at least two characters in the first word.

Specific Physician

Special Instructions

- 2012.01.22 (Upgrade):
 - In the new version, staff will have the REQUIRED ITEMS show in BOLD or with an Asterisks (*) as seen below. There is no longer a YELLOW line for requirements and the details section is open at the bottom with the options as fields for each requirement. Please note: Consultant Contacted field YES and NO actually require a CLICK to fill the bubble before proceeding.

Diet Orders

- In **Diet Order** some fields allow for multiple selections by clicking to select one item, holding the CTRL key and clicking another item to select more items from the drop down list.

Orders for CoSignature

Orders For Cosignature

- Orders requiring a CoSignature will display the Caduceus icon.
- Click the **Orders for CoSignature** button on the **LOWER LEFT** to view all orders that require a cosignature.
- Please note: Orders are CoSignature specific to each provider/mid-level position.
- Actions requiring cosignature window opens and displays all the orders that need to be co-signed.

Select All – All orders that need cosignatures are selected (default view). By deselecting this field, providers can decide which orders they want to cosign.

Show All Details – This allows the provider to view the details for each order that requires cosignature (default view). Deselecting this window will hide the order details.

Cosign - All orders that have a check mark before the order will be cosigned when this button is clicked.

After clicking Co-sign, the window closes and returns you back to the order profile window.

Easily Display Duplications in Plans

- Merge Function in PowerPlan
- When ready to sign the PowerPlan for a patient, click the **Merge** button:

- The outstanding items in the Plan that need to be addressed will show with an Orange header as you scroll through the plan.
- EX: This patient as duplicate medications ordered that need to be addressed.

A screenshot of the PowerPlan interface showing a list of medications. The interface includes a top navigation bar with 'Orders' and 'Medication List' tabs. A left sidebar shows a tree view of 'Orders for Signature' and 'Orders'. The main area displays a table of medications with columns for 'Component', 'Status', and 'Details'. A red box highlights a section of the table with an orange header labeled 'Medications (Other)'. The highlighted items are:

Component	Status	Details
digoxin (Lanoxin)	Ordered	125 MCG = 1 TAB, form= TAB, PO, QDay, Routine, 12/13/13 8:00:00
Furosemide (Lasix)	Ordered	20 MG = 1 TAB, form= TAB, PO, QDay, Routine, 12/13/13 8:00:00
IBUPROFEN (Motrin)	Ordered	600 MG = 1 TAB, form= TAB, PO, Q6Hours, PRN, Pain, Routine, 12/12/13 12:58:00

PowerPlan Improvements

- Too Many Orders for Quick View?

- This function button is at the Top Right of the Orders Screen. When the patient has MORE than 100 Orders the first 100 will populate while the rest are hidden in the background. Please CLICK the Show More Orders button to populate the screen with remaining orders for easy viewing.

- PowerPlan Initiate Button Moved

- **Initiate Plan** button has MOVED!!!
- In order to facilitate a more convenient workflow, the **Initiate** button is now located at the LOWER RIGHT next to the Orders For Signature button.

PowerPlan Improvements

- Check to Choose!!!

- **Don't** be fooled! There are times when the box is filled/ shaded but STILL REQUIRES a CHECK MARK or to have the line highlighted to display the details.

		\$			Order Name	Status	Details
[-] Medications							
		<input type="checkbox"/>			IBUPROFEN	Order	400 MG, form= TAB, PO, ONCE, Routine, 12/1
[-] Laboratory

SubPlans within the Workflow!!!

- Within a PowerPlan, the SubPlans are no longer a separate workflow!!!
- When you see the SubPlan icon: 
- **Check** the corresponding box to open the SubPlan.

- **Place Orders** as needed and click **Return to (name of specific plan)** in the SubPlan window to return to the original plan.
