

Are You at Risk?

Calculate Your Chances for Type 2 or Pre-Diabetes

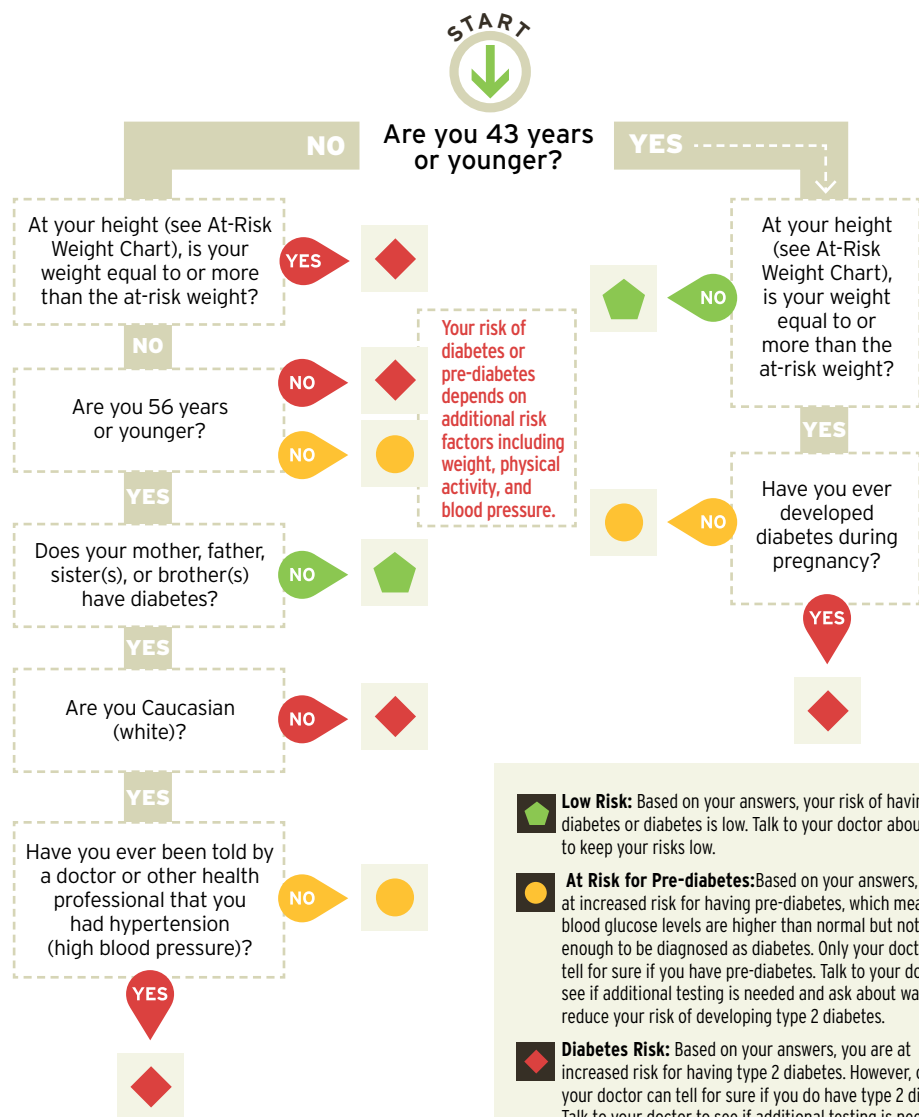

» If someone you know has diabetes – particularly a family member – you’re probably wondering whether you could develop it, too. The American Diabetes Association has revised its Diabetes Risk Test according to a new, more accurate statistical model. The updated test includes some new risk factors, and projects risk for pre-diabetes as well as diabetes. You can take the test below or at diabetes.org/risk-test.jsp. Then talk to your doctor if the results suggest you have or may develop diabetes. ▲

DIABETES RISK TEST

This simple tool can help you determine your risk for pre-diabetes or diabetes. **First**, using the flow chart below, answer the questions until you reach a colored shape. **Second**, match the colored shape with a risk message shown in the box below.

- Low Risk:** Based on your answers, your risk of having pre-diabetes or diabetes is low. Talk to your doctor about ways to keep your risks low.
- At Risk for Pre-diabetes:** Based on your answers, you are at increased risk for having pre-diabetes, which means your blood glucose levels are higher than normal but not yet high enough to be diagnosed as diabetes. Only your doctor can tell for sure if you have pre-diabetes. Talk to your doctor to see if additional testing is needed and ask about ways to reduce your risk of developing type 2 diabetes.
- Diabetes Risk:** Based on your answers, you are at increased risk for having type 2 diabetes. However, only your doctor can tell for sure if you do have type 2 diabetes. Talk to your doctor to see if additional testing is needed.

¿Está usted en riesgo?

Calcule su riesgo para la diabetes tipo 2 o la pre-diabetes

» **Si alguien que usted conoce tiene diabetes**, especialmente un miembro de su familia, usted probablemente está pensando si usted la pudiera desarrollar también. La Asociación Americana de la Diabetes ha revisado su Examen de Riesgo de la Diabetes de acuerdo con un modelo estadístico más preciso. Este examen actualizado incluye algunos factores de riesgo nuevos y además proyecta el riesgo para la pre-diabetes al igual que para la diabetes. Usted puede tomar el examen a continuación o en portufamilia.org. Y luego hablarle a su médico si los resultados sugieren que usted tenga o pueda desarrollar la diabetes. ▲

Examen de Riesgo de la DIABETES

Esta herramienta sencilla puede ayudarlo a determinar su riesgo de tener pre-diabetes o diabetes. **Primero**, utilice el diagrama de flujo para responder las preguntas hasta llegar a una figura de color. **Segundo**, compare la figura de color con el mensaje relacionado con el riesgo que se muestra en la leyenda a la derecha.
