

New Enhanced View Features and Functionality

Course Objectives

- After Completing this Presentation
 - ~ You will have a better understanding of the new features and functionality of Enhanced View
 - ~ Be able to ask questions prior to Go-Live January 4th 2012

Message Center

- Replaces InBox
 - ~ More familiar view with folder structure
 - ~ Handle requests
 - Orders requiring a co-signature
 - Verbal orders for signature
 - Inpatient renewal requests
 - Prescription routing errors (if using ePrescribe)

Admitting Physician: GLENS FALLS

New medication list.

- Remember to discard any old medication lists.
- Update this list when medications are started, stopped, or changed.

<< Previous Next >>

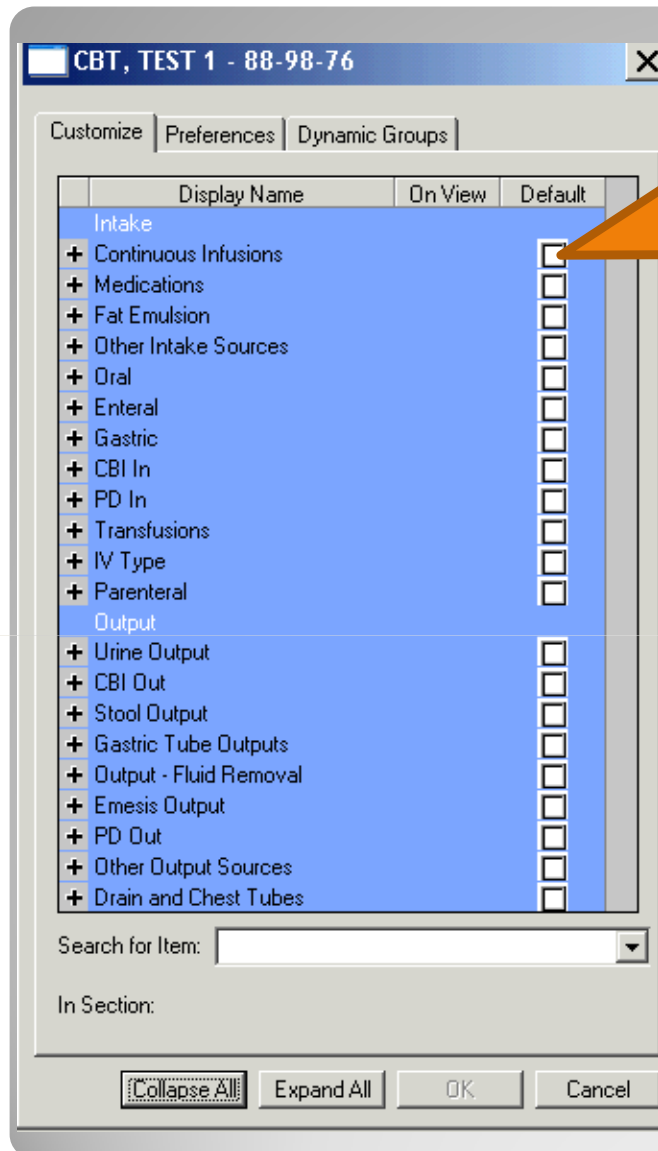

B38 PHYSICIAN 15 November 2011 12:42

When a document is selected in the navigator it will display in the right pane

I & O 2G

- Interactive allowing user specific customization.

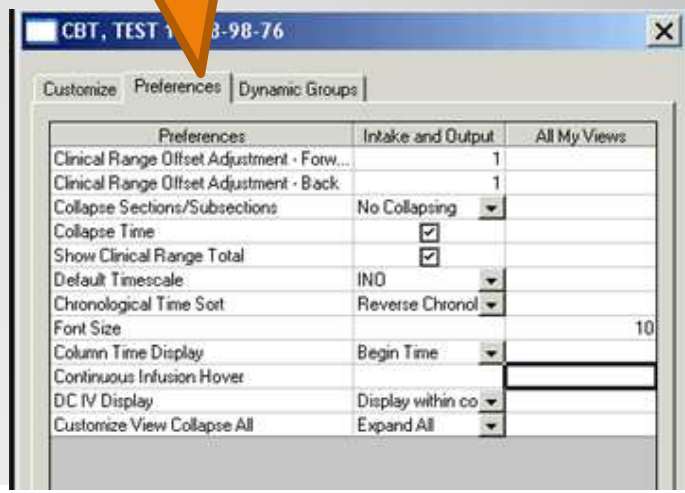

There are two levels of customization in I&O 2G.

Intake and Output-select an item to show on view and/or as a default. NOTE: Once something is charted on it cannot be removed from the view.

Preferences-Change the default clinical range, collapse columns, change the sort and font size, etc.

Depart Process

- Electronic discharge process
 - ~ Customizable follow up care instructions by specialty and condition
 - ~ When to call you/your office
 - ~ Follow up appointments
 - ~ Medication leaflets
 - ~ Customizable patient teaching materials
 - ~ Discharge med rec

Enhanced View Features and Functionality

This concludes our overview of Enhanced View. After completing this (Depart Process and Message Center) you should be ready to participate in the Enhanced View training class.
