Hospice means **home**

Hospice provides families with the support needed to care for their loved ones wherever they call home.

**HOSPICE**

**dignity, comfort & peace at the end of life**

**518-891-0606**

**www.highpeakshospice.org**

Hospice helps members of our community achieve a peaceful life closure aligned with their values, wishes, choices, and needs by providing:

- Comprehensive home-based care
- Control over their treatment
- Emotional and spiritual support
- Effective pain & symptom management
- No-cost medications, equipment and supplies related to the terminal illness
- Assistance with end-of-life goals
- A personalized plan of care
- 24/7 access for questions or emergencies

Hospice care is available to anyone with a qualifying life-limiting illness and prognosis of six months or less. **We often help patients with late-stage heart disease, renal failure, heart disease, COPD, dementia, cancer, and more.**

Anyone can make a referral to hospice, including the patient themselves.

The one thing families tell us most often is, **“We wish we had called hospice sooner.”**

Contact High Peaks Hospice today for:

MORE **comfort**...

Welcome

Thank You for Trusting Us

Thank you for choosing Glens Falls Hospital for your upcoming healthcare needs. Our skilled and dedicated physicians, nurses and staff have one priority in mind—your health and safety. Our primary goal while you are here is to ensure you and your family stay safe, informed, comfortable and satisfied.

Every hour of every day, residents of the southern Adirondack region choose Glens Falls Hospital, part of the Albany Med Health System, for their healthcare needs. In addition to a range of inpatient and outpatient services, including cancer and obstetric care, surgery, and rehabilitation and behavioral health services, our skilled network of physicians and staff provide primary and specialized outpatient care at more than 20 locations throughout the region.

I encourage you to let us know how we are doing by sharing your experiences, compliments or suggestions for improvement with us. Your input is an essential part of our commitment to continuously improve and enhance our services. Please feel free to share your experiences with your nurse, patient representative or with me either during or after your stay.

I hope this guide is a helpful resource to you, and your time here is as comfortable as possible. Best wishes for a safe and successful transition back to your home.

Sincerely,

Paul Scimeca
Interim President and CEO

Patient Satisfaction Matters to Us

How’s your stay? Are you getting the care you need? Are your doctors and nurses listening and responding to your questions or requests? Our goal is to provide the best quality care. To do so, we ask for feedback from patients like you.

During Your Stay
Please speak with your nurse or nursing supervisor if you have any questions or concerns about your care. If your issue still is not resolved, then contact the Patient Experience Department at 518-926-3450 or PatientExperience@glenfallshosp.org. You also have the right to file your complaint with either:

New York State Dept. of Health Centralized Hospital Intake Program

Making A Difficult Healthcare Decision?
Sometimes a healthcare choice can involve an ethical concern—such as a wish to refuse life-saving treatment or a disagreement over advance directives (see p. 18). Our Ethics Committee can help your team...
of support people make difficult decisions. Ethical concerns should be brought to the attention of the care team immediately, and you can notify the Patient Experience team Monday through Friday, 8:00 a.m. to 4:00 p.m.

**After Your Stay**

Once you leave our care, we will continue to seek your feedback through the Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) survey. The HCAHPS survey is a tool to measure and report patient satisfaction. It’s made up of simple questions on key care topics such as:

- doctor and nurse communication
- medicine and discharge information
- staff responsiveness
- overall quality of the hospital environment

Inpatients may receive a survey from Press Ganey either through the mail, by email or by text message. Please take the time to complete it. The results help us to know what we’re doing right and where we can improve.

**Post-Discharge Calls**

Glens Falls Hospital cares about you after you have been discharged. Within 48 to 72 hours of discharge, one of our nurses may contact you to be sure you understand your instructions, made follow-up appointments and filled your prescriptions, and to answer any other questions you might have.

---

**Want to Know How We Score?**

You can review and compare the quality, care and safety ratings for different hospitals at:

- Medicare – Care Compare, which uses HCAHPS results and other data: [www.medicare.gov/care-compare](http://www.medicare.gov/care-compare)

You also can find information on hospitals through these accrediting organizations:

- Healthcare Facilities Accreditation Program (HFAP): [www.hfap.org](http://www.hfap.org)
- DNV GL Healthcare: [www.dnvglhealthcare.com/hospitals](http://www.dnvglhealthcare.com/hospitals)
- The Joint Commission: [www.qualitycheck.org](http://www.qualitycheck.org)
Fast Facts About Your Stay

An A-Z Guide to the Most Frequently Asked Questions

**ATM**
ATMs are located in the Tower lobby and near the cafeteria on the lower level of the hospital.

**Cafeteria**
Location: Near the central elevators on the lower level

**Hours:** Monday through Friday, 6:30 a.m. to 7:00 p.m.

Note: At times, the cafeteria may be closed to visitors.

Your family and friends are welcome to choose from a variety of entrées, salads, beverages, desserts and snack items. Cash, Visa and Mastercard are accepted. Located just outside the cafeteria entrance is our Pico Mini Market which features a variety of hot and cold sandwiches, salads and entrees as well as beverage selections. There is a microwave available for heating sandwiches and entrees. To pay, scan the item at the pay station and pay by credit card. The Mini Market is open 24/7.

**Calling Your Nurse**
Your room is connected to the nursing station via an intercom system. To call for your nurse, press the call button near your bed. Call buttons also are located in each bathroom for your safety and convenience. If you have any questions on how to use the call button, ask a staff member to show you.

**Care Management**
The Glens Falls Hospital Care Management Department has case managers and social workers to ensure patients receive medically appropriate services during and after hospitalization. Our goal is a seamless transition to the next level of care, whether that be post-acute rehabilitation or home. If you have questions about the care management/discharge planning process or wish to speak to your case manager, please contact your nurse.

**Electrical Appliances**
Health Department regulations prohibit the operation of patient-owned electrical appliances, such as hairdryers or electric razors, in the hospital. Some battery-operated appliances may be used with permission from your nurse.

**Fire Safety**
We conduct fire drills from time to time. If you hear an alarm, stay where you are. In an actual emergency, hospital staff will tell you what to do.

**Flowers**
Flowers are delivered to patient rooms by individual florists. Please note that flowers are not allowed in Intensive Care units.
Gift Atrium
The Gift Atrium is located in the Tower lobby. It is open Monday through Friday from 9:00 a.m. to 5:00 p.m., and on Saturdays and Sundays from 10:00 a.m. to 2:00 p.m. You can also reach them directly by calling 518-926-2790. Proceeds from the Gift Atrium benefit patient and hospital services.

Guest Meals
Guest meals are available for family and friends for $7. These meals are delivered to the patient’s bedside at the normal meal delivery times. Please call ext. 2614.

Hospital Safe for Valuables
If you are unable to send your valuables home, do not keep them unsecured at your bedside. Call the hospital operator or ask a member of the nursing staff to assist you in securing your valuables. Our Security Department will secure your valuables until you need an item or are discharged.

Hospital Security
Security officers serve the hospital community 24 hours a day, seven days a week. They patrol the corridors and grounds, provide escort services, help with parking issues, and assist with any safety or security concerns. If you require assistance from hospital security, dial 0 for the hospital operator.

Interpreter Service
If needed, you will be provided the services of our Video Remote Interpreting devices. This service is provided for languages other than English, including American Sign Language. Pocket Talkers for the hearing impaired are available upon request to your nurse. Auditory recordings and large print copies of Transition of Care Summaries are available upon request for the blind and visually impaired. Questions about interpreter services can be directed to the Patient Experience Office at 518-926-3450, Monday through Friday, 8:00 a.m. to 4:00 p.m. or by calling the operator and asking for a nursing supervisor on weekends and holidays or after hours.

Lost and Found
If you have lost a personal item during your stay, please notify your nurse who will contact Lost and Found on your behalf. The Security and Patient Experience departments also are available to assist you at 518-926-2740 or 518-926-3450.

Mail
Upon submission, a Glens Falls Hospital volunteer will hand-deliver mail and packages. Mail received after you leave the hospital will be forwarded to your home. You may take outgoing mail to the nursing station or give it to your attending nurse. Postage stamps are available in the gift shop.

Glens Falls Hospital offers eCards, a free, secure, online service that allows internet users to email personalized get-well wishes to a patient. People can visit GlensFallsHospital.org, select "Visitors" under the “Patients &
Visitors” tab, then click “Send an eCard.” Upon submission, a Glens Falls Hospital member will hand-deliver the message in a sealed envelope to the patient’s room within 24 hours.

**Meal Takeout Service**
A variety of menu selections are available for takeout. In addition, whole pizzas with a variety of toppings are available for takeout service from the cafeteria between 11:00 a.m. and 6:00 p.m. (not available on weekends or holidays). To place your order, please call ext. 2233. (Patients should check with their care team about dietary restrictions before ordering pizza.)

**Medicines**
Please do not bring any prescription or over-the-counter medicines to the hospital. All medicines you take in the hospital need to be prescribed, filled and given to you by hospital staff. Tell your doctor about any medicines you regularly take. If you still need them, hospital staff will give them to you.

**Pastoral Care**
To support your spiritual identity, a certified chaplain is available to any patient in the hospital. Also the Albany dioceses of the Roman Catholic and Episcopal churches provide a chaplain whose primary ministry is to members of these faith communities. Clergy of all major religions are welcome to visit you in the hospital, if you wish. A list of patients containing their religious affiliation is provided to clergy. If you choose to opt out of the clergy directory, your name will not be included in this list. You may contact the hospital chaplain by speaking to your nurse or calling ext. 3531.

**Patient Meals**
Meals are prepared with your special needs in mind. A diet clerk will interview you daily for your meal selections. You may place your meal orders by phone by calling ext. 2614.

Your meals will be served between the following hours:
- Breakfast: 7:00 a.m. to 8:15 a.m.
- Lunch: Noon to 1:15 p.m.
- Dinner: 5:00 p.m. to 6:15 p.m.

**Personal Belongings and Valuables**
Personal care items such as contact lenses, eyeglasses, hearing aids and dentures can be stored in your bedside stand when not in use. Please do not put them on your bed or food tray to help avoid them being lost or damaged. Leave valuables like jewelry or cash at home, or give them to a trusted relative or friend to watch over. Glens Falls Hospital cannot be responsible for replacing personal belongings.

**Pharmacy**
The outpatient pharmacy is located in the Tower Lobby.

**Hours:** Monday through Friday, 7:00 a.m. to 5:00 p.m.

**Photos and Videos**
To promote a healing environment and protect patient privacy, taking photos and videos inside the building in patient care areas is not permitted.
**Public Restrooms**
For everyone’s health and safety, we ask visitors not to use patient restrooms. Public restrooms are located throughout the hospital. Ask hospital staff to direct you to the nearest one.

**Smoking**
New York state law strictly prohibits smoking anywhere on hospital grounds. Because of the documented harmful effects of smoking, Glens Falls Hospital maintains a tobacco-free environment throughout the grounds. Ask your healthcare provider about tobacco management that will meet your needs.

**Telephone**
Glens Falls Hospital provides a phone for each patient bed, with the exception of Behavioral Health. Your family and friends are able to call you directly by dialing 926 plus your extension (located on the phone next to your bed). To make an outside call, dial 9, wait for the tone, then dial the number you are trying to reach.

To use 1-800 numbers and to dial long distance, please dial 0 for the hospital operator. Long-distance calls must be dialed collect, billed to your home phone, or paid for with a prepaid phone card.

**TV**
Our patient rooms have safe, low-voltage color TVs provided free for your enjoyment. Closed captioning is available on all TVs.

**Visiting Hours**
Due to the recent pandemic, visiting hours are subject to change based on community infections and hospitalizations. Any restrictions or limitations to visitation will be based on patient consent and/or clinical need. Please note that visitors are asked to observe Quiet Times daily from 8:00 p.m. to 7:00 a.m. to give our patients the ability to rest and recuperate.

Glens Falls Hospital encourages the use of virtual visitation via digital devices to stay in touch with patients. The hospital can provide iPads to those who don’t have technology to communicate with loved ones. If you are interested in virtual visitation, please contact Patient Experience at 518-926-3450.

**Please note:** During flu season, the New York State Department of Health requires specific guidelines and precautions to prevent the spread of influenza. Please refer to posted guidelines throughout the hospital, or speak to your nurse about any questions or concerns.

**Vending Machines**
Visitors may purchase snacks and limited beverages in vending areas located throughout the hospital. An additional vending machine is located near the cafeteria on the lower level of the hospital. Most waiting rooms also have vending service.
Visitor Guidelines

Glens Falls Hospital recognizes the important role visitors can play in helping someone through a hospital stay. We are proud to provide a Visitor Management Program to ensure the safety and security of all patients, visitors and staff. Visitors will be greeted by Security at all Glens Falls Hospital entrances and asked to show a photo ID. A photo will be taken and a visitor badge will be issued to allow access to the campus.

Please note, there may be times when it is clinically necessary to restrict the number of visitors and/or duration of a visit. Check GlensFallsHospital.org for the most up-to-date visitation guidelines before arriving at the Hospital. For the comfort and safety of the patient, we ask that you follow these guidelines:

- Because of the harmful effects of smoking, Glens Falls Hospital maintains a smoke-free environment.
- Due to concerns for the safety of our patients, all visitors are asked to clean their hands before and after visiting patients. Clean your hands with soap and water or alcohol-based gel available throughout the hospital and in every patient room. Additionally, visitors are asked to follow any isolation precautions while visiting. We hope these requests will create a safe and healthful environment for all patients, staff and visitors in the hospital.
- Many patients are on controlled diets. Check with the nurse before bringing in outside food.

- Please do not use restrooms located in patient rooms. A nurse or other Glens Falls Hospital staff member can direct you to the nearest public restroom.
- Firearms and other weapons are not permitted on hospital property, except in the case of on-duty law enforcement officers.

These guidelines have been established to ensure your loved one or friend is treated in a quiet, healthful environment, with time for visitors as well. In semi-private rooms, the privacy and need for rest of both patients should be of the utmost consideration. Your cooperation in maintaining a peaceful and comfortable atmosphere for all patients is greatly appreciated.

In the event that the hospital must restrict a patient's visitors or other forms of communication based on therapeutic effectiveness, this will be fully explained to the patient and family/friend, and will be determined with their participation. Thank you for your cooperation.

Visitor Policy

You have the right to choose and prioritize visitors from among family, friends, partners, personal care aides or other individuals (regardless of the person's gender or your relationship to the person). You also can choose a support person to be present throughout your stay, unless that person's presence affects your health or the rights or safety of other patients. For questions about your visitation rights, contact Patient Experience at 518-926-3450.
You are the center of your healthcare team. Let this special guide help you get the best results from your hospital stay.

Speak Up! If you have questions or concerns, you have the right to ask and get a response from your doctor or nurse that makes sense to you. To help, share your answers to these questions with hospital staff.

- What language would you prefer to speak?
- Do you need glasses, hearing aids or other devices to help with talking to hospital staff?
- Do you prefer to hear, see or read health information?
- Do you have any cultural, ethnic or religious-based special needs?
- Who will be your support person who talks with hospital staff about your healthcare wishes?

Ask Yourself

Is there anything else the hospital should be aware of to improve my care experience?
We have over 55 years of experience providing quality home care to all residents of Warren County in need of intermittent, professional skilled services. Services are available 7 days a week. Our goal is to make care as comfortable as possible for our patients and families.

- Nursing
- Wound Care
- Restorative Care
- Palliative Care
- Home Telemonitoring
- IV Therapy

- PRI/Screen Assessment
- Physical, Occupational & Speech Therapy
- Nutritional Services
- And More...

7 Key Ways TO TAKE CHARGE OF YOUR CARE

SPEAK UP. Ask questions and voice concerns. It’s your body, and you have the right to know.

PAY ATTENTION. Always double-check that you are getting the right treatments and medicines from the right hospital staff.

EDUCATE YOURSELF. Learn about your medical condition, tests and treatment options so you know why following your care plan is so important.

FIND A SUPPORT PERSON. Pick someone to help speak up for your care and needs during your stay.

KNOW YOUR MEDS. Understand what your medicines treat, why you need them and how to take them for the best results.

CHECK BEFORE YOU GO. Make an informed decision when selecting additional healthcare services. Choose only accredited providers who meet patient safety and quality standards. Go to www.qualitycheck.org to learn more.

PARTICIPATE IN YOUR CARE. You are the center of your healthcare team. Make sure you know what’s happening every step of the way—from admission through discharge.

Source: The content within the “Take Charge of Your Care” section reinforces the safety and quality care goals and standards issued by The Joint Commission and other hospital accreditation organizations.
Prevent Falls

While you are here, you may feel dizzy or weak. Illness, procedures, medicines or even just lying down for too long can make you less steady on your feet. To keep yourself safe:

- Use the nurse call button for help getting out of bed.
- Ask for help going to the bathroom or walking around. (And use hospital handrails when they're available.)
- Wear nonslip socks or footwear.
- Keep often-used items within easy reach (glasses, remote, tissues, etc.).
- Make sure your wheelchair is locked when you get in or out of it. Never step on the footrest.

Patients of all ages are at risk for falls. It’s better to be extra careful than risk another medical problem.

Check IDs

While you are here, many people will care for you (doctors, nurses, aides), and these same people will care for many patients. To prevent errors in your care:

**Ask to see the ID of everyone who comes into your room so you know the name and job of the person caring for you.** If you do not see an ID badge, contact your nurse immediately.

**Speak up if hospital staff does not check your ID.** Any time staff enters your room to give you medicine, transport you, or perform procedures or treatments, state your name and birth date.

This may seem repetitive at times, but it helps ensure you receive the correct care.
5 Ways to Fight Infections

The hospital is a place you come to get well, but you also can come in contact with germs that can make you feel worse. Reduce your chances of infection by taking these safety precautions.

1. **Clean your hands.**
   - after touching hospital objects or surfaces
   - before eating
   - after using the restroom

2. **Ask hospital staff members to clean their hands.** This should be standard practice, but don’t be afraid to remind them if they forget or to ask them to wear gloves when touching you. Ask visitors to clean their hands too!

3. **Cover if you are sick.** If you get an infection, limit the spread of germs by sneezing and coughing into tissues you promptly throw away, and avoid touching other people. Ask the staff if there is anything else you should do—like wear a surgical mask—to prevent the spread of germs.

4. **Keep an eye on bandages or dressings.** If a dressing on a wound or IV becomes loose or wet, let your nurse know. Also if you have a catheter or drainage tube, tell your nurse if it becomes loose or dislodged.

5. **Keep your vaccinations up-to-date.** Make sure you are as protected as possible from the spread of infection. Check with hospital staff about whether it’s safe for you to receive any vaccines you might need.

**CLEANING TIP:**

Use soap and water or alcohol-based hand sanitizer under your nails, in between your fingers, and on the palms and backs of your hands. Rub for 20 seconds (the time it takes to sing “Happy Birthday” twice).

Tell friends and family not to visit if they are sick. And make sure all your guests wash their hands when they enter your room.
Don’t Ignore Pain

No one knows how much pain you are in but you. Tell your doctor or nurse when pain strikes or if it comes back again after it goes away. Talk about your pain level throughout the course of your stay.

Ask yourself, then share with your nurse.
- Where does it hurt?
- When does it hurt?
- Does it keep you from doing things—like sleeping, dressing, eating?

Which words describe your pain?
- aching
- bloating
- burning
- comes and goes
- constant
- cramping
- cutting
- dull
- numbing
- pressing
- pressure
- pulling
- radiating
- searing
- sharp
- shooting
- soreness
- stabbing
- throbbing
- tightness

How bad is it on this pain scale?

You’re the Expert on Your Pain

Starting to get uncomfortable? Pain medicine not working? Speak up. You may need to get more of the current pain medicine you are on or switch to a different kind of medicine to get relief. Don’t try to ignore painful symptoms. Managing your pain will help with your healing process. Talk to your doctor or nurse when pain strikes.
Your Health Records Rights

You Have the Right to See Your Own Health Records
Effective January 1, 1987, New York state law requires all healthcare practitioners and facilities to grant patients access to their own medical records. However, some restrictions may apply.

Who May Request Information?
Patients and parents or guardians who have authorized their child’s care may request information. You will be required to put your request in writing. Upon receipt of your request, the healthcare provider has 10 days to provide an opportunity for you to inspect your records. You also may request copies of the records. The provider may make reasonable charges to you to cover the cost of reviewing the records and any copies you request. You cannot be denied access to the records simply because you cannot pay the costs of inspection. The provider has the right to review the records before granting you access. The provider may decide to deny access to all or part of the record if one of the exceptions to the law applies. In such cases, the provider may give you a prepared summary of the record.

Can Denial of Access Be Appealed?
Yes. If access is denied, you may appeal. The provider is required to give you a form explaining the appeals process. If you wish to appeal, complete the form and mail it to the Access to Patient Information coordinator at the New York State Department of Health. A medical records access review panel will review the records, provide you and the provider a reasonable opportunity to be heard, and issue a written determination. If the review committee decides that you should have access to the records, the practitioner must comply.

If the committee agrees that access may reasonably be denied, you still have the right to seek disclosure through a court proceeding. However, if the committee decides that parts of the record are personal notes, the decision is final and cannot be reviewed in court.

Other rights and limitations may be involved. If you have problems gaining access to your medical records and need more information, write to the Access to Patient Information coordinator, New York State Department of Health, Office of Professional Medical Conduct, 433 River St., Suite 303, Troy, NY 12180, or call 518-402-0814.
Before You Leave

Advance Directives

A Simple and Smart Way to Take Charge of Your Care

One of the most important decisions you can make about your care is to fill out advance directives in case you can no longer speak for yourself. Advance directives are documents that let others know your wishes about the type of care you want. And they will only be used if you become unconscious or too ill to communicate yourself.

Different states have different laws about advance directives. Check with your Admissions Department or nurse if you have any questions. Directives can include:

**Living Will**
This set of instructions explains the type of life-prolonging medical care you wish to accept or refuse. It can include your wishes about the use of resuscitation (CPR) if your heart stops, a ventilator if you stop breathing, or feeding tubes or IVs if you cannot eat or drink.

**Healthcare Proxy**
This is a legal document that names your healthcare proxy (agent)—someone who can make medical decisions for you if you’re unable to do so. An official healthcare proxy can represent your wishes on emergency care but also on other medical issues like potential treatment options, blood transfusions, kidney dialysis, etc.

The patient/family is encouraged to speak with the care team about healthcare decisions. You should provide them with copies of the document(s).

It is extremely important that you keep your documents in a safe, accessible place and bring them with you to the hospital each time you are a patient so they can be noted in your medical chart.

**MOLST**
These are Medical Orders for Life-Sustaining Treatment—a document completed with your physician regarding Do Not Resuscitate and Do Not Attempt CPR orders.

**FILL OUT YOUR FORMS**
Make sure you submit advance directives each time you go to the hospital so your most current information and wishes are on file. You do not need a lawyer to fill these out. For more information and to obtain the forms you need, contact the Patient Experience Department at 518-926-3450. Information packets are also available at Registration and from your unit nurse.

Information packets are also available at Registration and from your unit nurse.

**Choose Your Care**

Fill out advance directives so your wishes are met and your loved ones are sure of what you want.
Plan Early to reduce your chances of being readmitted and increase your chances for a healthy recovery. Take steps as soon as possible during your stay to plan for a successful transition from the hospital.

To begin, ask to speak with your discharge planner, and review the following:

- your discharge summary and discharge plan
- your complete medicine list and instructions
- your upcoming appointments
- what to do if you don’t feel well

A Reason to Plan Early

If you need a rehabilitation facility, nursing home, skilled care or other service after your stay, you’ll need time to find and weigh your options. For help comparing services in your local area, go to:

- www.qualitycheck.org
- www.medicare.gov/care-compare
Checklist for Discharge

Make sure you have the following information before you leave the hospital.

☐ **Discharge summary.** This includes why you were in the hospital, who cared for you, your procedures and medicines.

☐ **Medicine list.** This includes all your new and former prescriptions, over-the-counter medicines, vitamins and supplements. Ask if there are any medicines you can stop taking or that are not good to take together. Also make sure you know why, how and when to take each one.

☐ **Prescriptions.** Check that your pharmacy has your new prescriptions and that you have a plan to get them filled.

☐ **Follow-up care instructions.** Beyond medicine, this can include:
  - foods or activities to avoid
  - tests or appointments
  - how to care for incisions or use equipment
  - warning signs to watch for
  - daily living adjustments (like how to get into bed)
  - who to call with questions

☐ **After-hospital services.** Know how much support you’ll need in these areas:
  - **Personal care:** bathing, eating, dressing, toileting
  - **Home care:** cooking, cleaning, laundry, shopping
  - **Healthcare:** taking your medicines, doctor’s appointments, physical therapy, wound care, injections, medical equipment

☐ **Local resources.** Ask your discharge planner for help finding local support groups or other after-care services.

Try the teach-back method. Repeat back what you hear the discharge planner say to make sure you understand the details correctly.
**Understanding Your Bill**

**Take Charge of Your Payments**

The hospital billing process may seem complicated, but you can feel more in control by knowing exactly what your bill covers. For example, if you stay overnight, you can expect to see charges for your room, meals, 24-hour nursing care and medicines. The bill also will show charges for any special services, such as X-rays and lab tests. You’ll receive bills for doctors, surgeons and specialists separately from the hospital.

**Medicare**

If you have Medicare, you may have to fill out an MSP (Medicare Secondary Payer) form. This ensures that Medicare only pays for services not covered by other insurance you may have. If you have secondary insurance, this usually covers Medicare deductibles. If you don’t have secondary insurance, you need to pay these amounts yourself.

Also be sure to read your quarterly MSNs (Medicare Summary Notices) to review:

- the amount your doctor(s) charged
- the amount Medicare approved and paid
- the amount you owe
- your current deductible status

If you have questions, call the customer service number listed on your statement.

**Commonly Confused Terms**

- **Deductible:** The amount you owe each year before your insurance begins making payments.
- **Co-payment:** A flat fee you pay for a specific service, usually due at the time of service.
- **Coinsurance:** The portion of your medical expenses that you’re personally responsible for paying. For example, your insurance may cover 80 percent of a bill, while you have to pay the remaining 20 percent.

**KEEPING TRACK**

One of the key ways to feel well-informed and less overwhelmed about the hospital billing process is to stay organized. Keep all of your statements and bills together and review each one as it arrives.
Commercial Insurance Providers
If you use a commercial insurance provider, then the hospital forwards your claim based on the information you provide at registration. About a month after you leave the hospital, you'll get an explanation of benefits (EOB) statement from your insurance provider. This isn’t a bill. EOBs show:

- the amount billed by your doctor or hospital
- how much of that cost is covered by your insurance
- how much you owe

Review this and all other bill-related documents carefully. If you have questions, contact your doctor or the customer service number listed on the statement.

Self-Pay Patients and Payment Arrangements
If you are planning to pay your bills without help from Medicare or a commercial insurance provider, then you will get bills directly from the hospital.

In addition to a bill for hospital services, you also may receive a bill for certain professional services provided by the physicians responsible for your care.

Financial Help
Glens Falls Hospital recognizes that there are times when patients in need of healthcare services are unable to pay for the services provided. If you are uninsured, you may be responsible for the entire bill for services depending upon your financial status. If you are currently facing financial difficulty, you may qualify for Medicaid, our Charity Care program or other available public funds. Our staff will assist you in completing the financial aid forms and will walk you through each step in the process. If we can assist, please call 518-926-5111.

Understanding Coordination of Benefits (COB)
COBs happen when you're covered under two or more insurance companies. This may occur when partners or spouses are listed on each other’s insurance policies, or when both parents carry their children on their individual policies.

To prevent duplicate payments, COBs determine the primary payer. You choose who this is when you’re admitted. Insurance companies usually request completed COBs from you before paying a claim, so make sure you address these requests quickly.
Domestic Violence Assistance
Local Law Enforcement
Glens Falls Hospital employees can help you contact local law enforcement agencies.

Hospital Resources
Care Management: 518-926-3300
Behavioral Health Services: 518-926-3210

Get help now. Get safe.
Call 24 hours a day 1-800-942-6906 (English) or 1-800-942-6908 (Spanish), TTY for the Hearing Impaired 1-800-818-0656 (English) or 1-800-780-7660 (Spanish and includes a language bank of 140 different languages).

HIV Testing
Per New York state law, HIV testing must be offered to all persons between the ages of 13 and 64 receiving hospital services. This test is voluntary and requires the consent of the person being tested or someone authorized to provide consent for the individual. Patients should be asked directly in writing or orally.

Amanda’s House
Glens Falls Hospital is pleased to offer patients and families of patients complimentary accommodations at Amanda’s House. The house is a three-bedroom home located just under a mile away from the hospital. Guests stay in private rooms with cable television. The house has common laundry facilities, kitchen, dining, living room and bathrooms. The house is not modeled after a hotel—it is more like a home away from home when you need it most. For reservations in advance, call 518-792-7212 or for immediate availability, speak to the nurse manager on duty.
Glens Falls Hospital is committed to providing quality healthcare regardless of the patient’s ability to pay. You can help us help others by making a contribution to Glens Falls Hospital Foundation. Your gift will also help us enhance our services, programs and facilities to better care for our community.

Make Your Gift Today
Tax-deductible gifts can be made in the form of cash, check, credit card or stocks. You may also remember Glens Falls Hospital in your will and through life insurance, among other gift options.
