

Changes to Stone Analysis Testing

HIGHLIGHTS:

Effective 9/7/2022, all stone analysis previously requested using the “Surgical Pathology” orderable, we will have a specific order available for use.

“Stone Analysis – Ref Lab”

PN0014409

LabCorp Test Code: 910180

With this change, results will no longer be reported as under a surgical case. In Cerner, these results will be visible within the results review tab of PowerChart under reference labs.

For additional information related to this testing, please visit the LabCorp website:
